

Metropolitan Women's Democratic Club NEWSLETTER

The Metropolitan Women's Democratic Club (MWDC) was organized in March 1960. MWDC supports and espouses the tenants of the Democratic Party and is engaged in every level of the Democratic structure. Always in the forefront of political action, the women of MWDC understand that only through continued activities and participation can goals be realized and achieved.

Welcome for Women in Congress Reception

The DC Federation of Democratic Women served as a co-sponsor of the 'Welcome for Women in Congress' reception held at the Women's National Democratic Club on Wednesday, January 16, 2019. The event was held in honor of the new female members elected to the 116th Congress. More than 200 women and men across the DMV attended.

The members of Metropolitan Women's Democratic Club (MWDC), a member of the DC Federation, were very well represented and came out in mass as a sign of solidarity. There is power in numbers, which was clearly evident on this auspicious occasion as our members strongly supported the cause and the mission. This was truly an evening to remember.

Metropolitan Women's Democratic Club

Welcome for Women in Congress Reception Cont.

In addition to welcoming the newly elected women of the 116th Congress, powerful discussions took place as well. Discussions about health care for rural communities and upgrading technology were discussed in great detail by Congresswoman Cynthia Axyne, Arizona 3rd District.

These often-overlooked areas of major importance are still relevant to the well-being of our nation.

Facilitating access to technology for families within the rural communities is vitally important and needed.

Accessing the superhighway is one way to ensure that individuals can tap into to an unlimited resource of knowledge.

Based on the stories told by some of the speakers, health care is a priority as well. It is hard to do good if you do not feel good, and feeling good or at least better is often connected to having the ability to visit with or speak to a medical professional when you have a question.

While health care has been a political hot button for years, we must remember that there are Americans with medical needs behind these debates. A healthy population means we have a healthy country which is something that is well beyond any party affiliation.

2018 Annual Meeting and Chairman's Inaugural Breakfast

Members also attended the 2018 Annual Meeting and Chairman's Inaugural Breakfast. Learning more about the economic state of the Nation's Capital and the plans for improving our city's standing economically is always a learning experience. This year's breakfast was no different.

Being in the room with problem solvers is always an exciting time because the synergy helps elevate the thinking of everyone.

Those in attendance had a chance to meet new members, fellowship and share something about themselves, as well as network.
